

REMARKS

Claim Status

Claims 1-14 are pending in the Application. Claims 1-10 and 12 have been rejected and claims 11 and 14 has been objected to. Claims 13 appears to have been the subject of a restriction, but the office action is unclear on this issue, and Applicant asks that the Examiner clarify the issue if the Applicant has misunderstood and be given additional opportunity to amend, if necessary. Claims 1-10, 12 and 13 are being cancelled without prejudice to refilling in a continuation application. Claims 11 has been rewritten in independent form and includes the limitations of the base claims therein. Applicant does not believe that any new matter has been added to the claims.

Election Restrictions

Applicant believes that the species A includes the current claims that would be allowed (claims 11 and 14) and elects these claims. All other claims have been withdrawn from consideration. Therefore, there are no claims pending that could have been drawn to another invention.

Claim Rejections

Applicants disagrees with the Examiner's objection to claims 1-10 and 12 (and possibly 13), but has cancelled these claims without prejudice to their refilling to place the application in condition for allowance. For the reasons stated above, Applicants respectfully request reconsideration of this application.

Claim Objections

Applicants has redrafted claims 11 and 14 to place the objected to claims in condition for allowance. Applicant kindly asks that the Examiner withdraw his objections.

Conclusion

Applicants believe they have addressed and responded to every point raised in the Examiner's present action had having placed the application in condition for allowance respectfully request reconsideration of this application.

Respectfully submitted,

/Anthony D. Logan/

Date: Feb. 12, 2009
